

MARIANO NOCETI

MULTIMEDIAL DESIGNER

I´m Mariano. I´m a Buenos Aires based freelancer. I used to work with a lot of Argentinian companies and work remotely on projects for clients over the world.

I developed a diverse set of communication skills such as online community management, UI design, HTML, CSS, JavaScript and a little bit of PHP (that´s for the big dudes)

EDUCATION

2003 - 2007 DISEÑADOR MULTIMEDIAL ESCUALE DA VINCI

Da Vinci was the first school to offer the Multimedia Design career in Latin America, and continues to offer the most complete curriculum at present. I was part of the 2007 promotion.

In Da Vinci I officially met the design, coding, video editing and much more. The time, experience, some seminars and hard work gave me the rest of what I am.

SKILLS

Web design

Web Coding

Video Editing

Community management

HOBBIES

I think that a hobby really helps to know the personality and a designer´s ideas.

What I love most is to travel over the globe. I also I like to ride my motorcycle, listen old school rock and roots reggae.

I was a rugby player for 20 years.

Today I´m a very dedicated crossfitter.

WORK EXPERIENCE
